-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Different Examiner

It is noted that this case has been assigned to a new examiner. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Ryan A. Jarrett whose telephone number is (571) 272-3742. The examiner can normally be reached on 10:00-6:30 M-F.

Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 12-17, 19, and 24, drawn to a system wherein sensors are respectively calibrated on the band of the yielding characteristic frequencies peculiar to the bearing structure thereon they are fastened.

Group II, claim(s) 18 and 25, drawn to a portable device for monitoring the stability status of building structures.

Group III, claim(s) 20-23 and 26, drawn to a system wherein a management and control station filters, analyzes and processes signals received by one or more seismic and/or vibrational sensors.

The inventions listed as Groups I-III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: Any features shared by Groups I-III are not special, as evidenced by the teachings of Bohannan et al. US 4,956,999 as laid out in the International Preliminary Examination Report. For example, see col. 11 lines 9-18, col. 18 lines 58-63, col. 6 line 31 "Crystallization", col. 11 lines 36-43, and col. 18 lines 25-45 of Bohannan et al. See also the other findings in the IPER.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Response to Arguments

Applicant's arguments filed 10/03/08, regarding the rejection based on Svaty, have been reviewed. It is noted that the arguments may be persuasive with respect to the features of new claims 24-26, but do not appear to be persuasive with respect to features of the independent claims.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to RYAN A. JARRETT whose telephone number is (571)272-3742. The examiner can normally be reached on 10:00-6:30 M-F.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Albert Decady can be reached on (571) 272-3819. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
